

Trinary Science

Trinary Science is a specific type of Science based on 3 Logical State Changes, to understand what State Changes are, we need to first look at the Math behind the State Changes, so I will call this Trinary Math, and it is based on a simple Math Equation $(+1) + (-1) = 0$, we can write $(+1)$ as 1 but we cannot write it as $1 - 1 = 0$, because this is Calculus, and it is called a Prim-er, and Sir Isaac Newton did not invent Calculus he said that he figured it out from a Math Equation found in the 3rd Century Torah, that did not have Christ inserted into it, and defined God as All Light without Darkness, this Torah also known as the condensed version called the Bible, and this is not about Religion, but Bible or Torah Math, and this is all I have to say about either the Torah or Bible, so if we follow the Math of the Torah, it is talking about a Linear Function of $(+1) + (-1) = 0$, which is better to view this Linear Equation as a graph written using Calculus, such that, we have a Linear Function that sweeps out a specific type of waveform called a Brainwave, the top graph is a 2-Dimensional view, the bottom is a 3D view, proving this is a Helix, also known as one strand of DNA, and Nikola Tesla called this Alternating Current or AC frequency, proving the Torah is written in Math.

To understand Trinary Math, we must understand the Torah or Bible, because Electricity makes Light, and All Light without Darkness is how God is defined in all Bibles.

I cannot teach Trinary Science without referring to the Torah or Bible, I will only refer to the 3rd Century Torah. Torah means Cannons each the size of a Bible, the 3rd Century Torah has 66 Cannons, the 4th Century has 42 removing all Science from it, and making it the Book of Sin, proof is in Psalms 23 where People who are Religious take the Mark of the Beast known as Sheep, but Trinary Science is not about the Torah, but about only 3 passages in the Torah

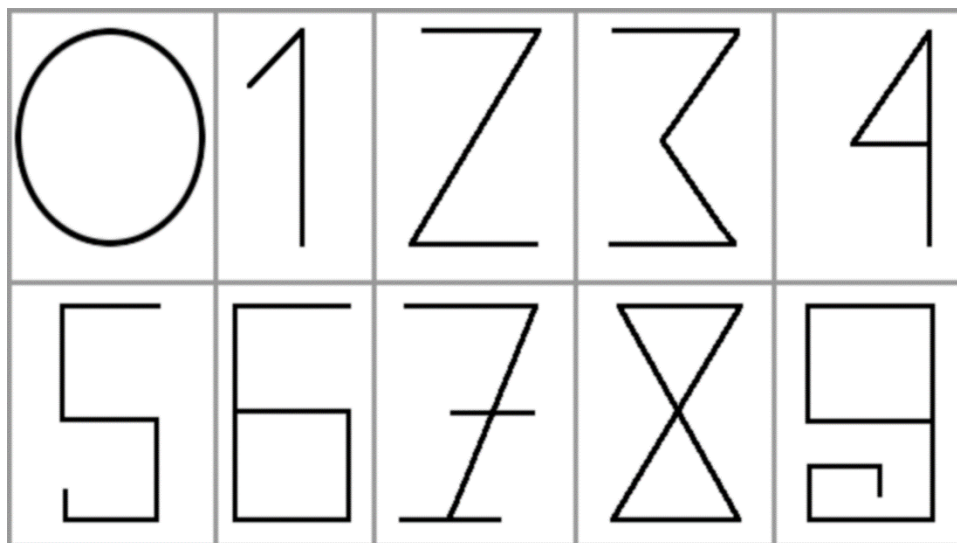

1. God is All Light without Darkness
2. IAM God
3. Sheep is the Mark of the Beast

| State | Trinity | Dimension(s) | Visibility | Graph | | | | | | | | | | | | |
|------------|-----------------------|--------------|------------|-------|---|---|---|---|---|---|---|---|----|----|----|----|
| (+1) | Father | ALL 3 | Solid | * | | | | * | | | | * | | | | * |

The Torah or Bible said the Father is the Positive 1, and is Solid Matter and is in all 3 dimensions, and why it is called Trinity, the Son is Negative 1 and Antimatter because it is only Semisolid because it is transitioning from the 2nd to the 1st dimension, and 0 is Ground, also known as Earth, or Mother Nature, making the number 0 the Holy Ghost, since it is Invisible because it has no Dimensions, and this is God since it is the Light since God is All Light without Darkness found inside every Atom in the Universe and Atoms are Trinity since we have 3 types of Atoms.

1. Proton
2. Neutron
3. Electron

Sir Isaac Newton hated the teaching of Trinity as a Deity that does not Physically Exist, much like Jesus Christ did not exist in the 3rd Century Torah, because Kepler found out Christ was inserted into the 4th Century Torah, to make only the Love of Money Evil, and to make Jesus Bar Abbas out to be the Bad Man for being the Leader of the Militia that defeated the Roman Empire for their use of Money and Taxation, since Tesla proved we are Light Beings, our Souls are Light, and Electricity makes Light, and in the Torah it said that Satan will Buy and Sell Souls, so I changed the name Trinity to Trinary since they both mean the same thing anyway.

The Science of the Torah is what Kepler, Newton and Tesla used, so the teaching goes back to this Canon about the Zodiac, it defines Numbers as having Angles or Degrees, each character is call and Angel, so the 0 Angel is God, this is the beginning, so God or the Light, keep in mind God means All the Light in the Universe, whereas Light is very specific, but inside every Atom is Light without Darkness, so part of God is inside every Atom, and inside all Lifeforms, so it is not possible to teach Trinary Science, without teaching where this came from, and explaining the Torah or Bible Math Code.

Sir Isaac Newton said God is the Force of Gravity in all his Equations, so he was saying that the Light without Darkness inside every Atom is the Force of Gravity, if we want to know how much Force God or the Light has, we need to look at its Mass of Atoms and times them by their Acceleration, but keep in mind Light is Static, therefore has no acceleration, so we need to use Differential Equations to find the Speed of Dynamic Objects, based on the difference in speed from what is Static, which is Light or God, and what is Dynamic which is every Atom in the Universe, and God or Light that is Static, is inside the Atoms, yet the Light inside the Atom remains Static, but its Shell made of Neutrinos are Dynamic, but only move in the 0 Dimension of Space, so they do not burn up, since the Universe is moving at the Speed of Light, and that is what is causing Gravity, our Galaxy and Sun do not have any way to accelerate in the Universe, instead they are being dragged through space, imagine a Fishing Pole and a Flashlight, hook the Light, and turn it on, it does not move, yet the line reels out at the speed of Light, and it is dragging us with it, and why Kepler and Newton's Math works, it is Trinary Math.

$${}_{-1}^{+1}f(x) = 0 \quad \text{Reduces to: } F = M a$$

$${}_{-1}^{+1}f\left(\frac{M}{a}\right) = 0 \quad \text{Reduces to: } F = \frac{M}{a}$$

$${}_{-1}^{+1}f\left[G\left[\frac{M^1 M^2}{d^2}\right]\right] = 0 \quad \text{Reduces to: } F = G\left[\frac{M^1 M^2}{d^2}\right]$$

This is Witchcraft, and why Kepler, Newton, Franklin, and Tesla studied it, it means all words and spells have more than one meaning, but in Math, only one meaning is right.

To understand Light or God, we must understand Atoms, and the Electron has Light without Darkness as well as the Darkness inside it, it is the only Atom that has Darkness in it, and to understand this Darkness, we must take a Prism and break out the White Sun Light into a Rainbow of Colors, and Black through shades of Grey to White are inputs to the Prism and are not found in the Rainbow, so they are not Colors.

| Color | Visual | Wavelength (nm) | Frequency (THz) | Photon Energy (eV) | Temperature (K) | Temperature (°) |

| Ultraviolet | | < 300 | 1000 > | 4.15 > | 33,333 > | |

| Infrared | | 1000 > | < 300 | < 1.24 | < 3,333 | |

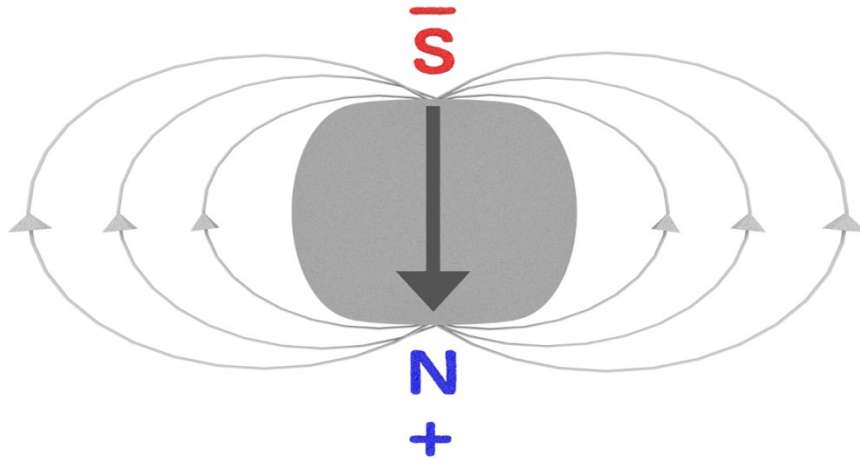

Looking at this Light Table, we can imagine that all Atoms have 3 Logical State Changes, we have Visible, and if we look at the Frequency of Atoms, we know that this means how long we can see the inside of the Atom called an Electron, as such, looking at this graph:

| State | Trinity | Dimension(s) | Visibility | Graph | | | | | | | | | | | | |
|------------|-----------------|--------------|------------|-------|---|---|---|---|---|---|---|---|----|----|----|----|
| (+1) | Father | ALL 3 | Solid | * | | | | * | | | | * | | | | * |
| 0 | Mother or Ghost | 0 | Invisible | | * | | * | | * | | * | | * | | * | |
| (-1) | Son | 1 or 2 | Semisolid | | | * | | | * | | | | * | | | |
| Time frame | | | | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |

We see Solid, this is Matter, and it is positive Energy whereas the Semisolid state is transitioning into the 0 Dimension, one Dimension at a time, so when 3D, it has all 3 Dimensions when positive, and it loses a dimension and begins to transition into the 0 dimension where it is only open for so much time, like a shutter on a camera, it is what creates Color.

All Atoms only move in the 0 Dimension and this is a key point to remember, we view all objects as solid, but they are 99.999% empty space, and those atoms are toggling between state changes, and when in the 0 dimension, the Neutrinos can move when their space is collapsed, otherwise we would burn up since we are moving at the Speed of Light, and why when we turn on the Flashlight, its Light has no Acceleration, yet appears to move.

All atoms have a Magnetic Signature, I will try to illustrate this showing it has a Negative South end and a Positive North end, and energy always flows from Negative to Positive.

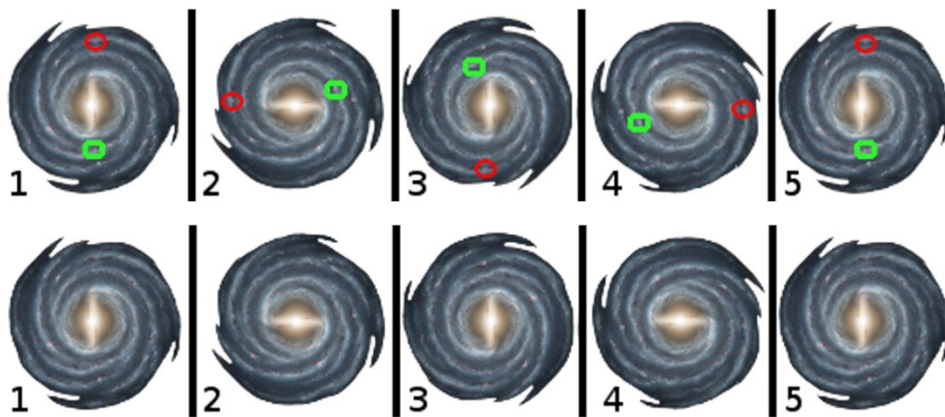

Every Trinary Atom has connector points, where other Atoms can connect to it, all of them have 137 connector points, but only specific points are active in each Atom known in the Periodic Table of Elements, thus all connections are electrical in nature.

The Trinary Universe is based on Trinary Atoms, and they have larger counterparts called Trinary Engines, although I did come up with the name, I did not discover them, a woman named Henrietta Swan Leavitt did, and why I give her full credit for the Trinary Universe, my only contribution was Trinary Math explaining what she discovered, but she died young, and did not finish her work, so I finished it for her, and I want the World to know this, I have no idea if she would have discovered the Math behind it, I saw it in an Electrical Vortex, based on 3, 6 and 9, and have no reason to believe she knew this connection, and the Torah knew this, so I really did not invent the Trinary Math, much like Calculus, I only discovered in the Torah, and give it full Credit for the Trinary Universe, in Fact, Trinity from the Torah, is just Trinary, the reason for the name change is due to Logic.

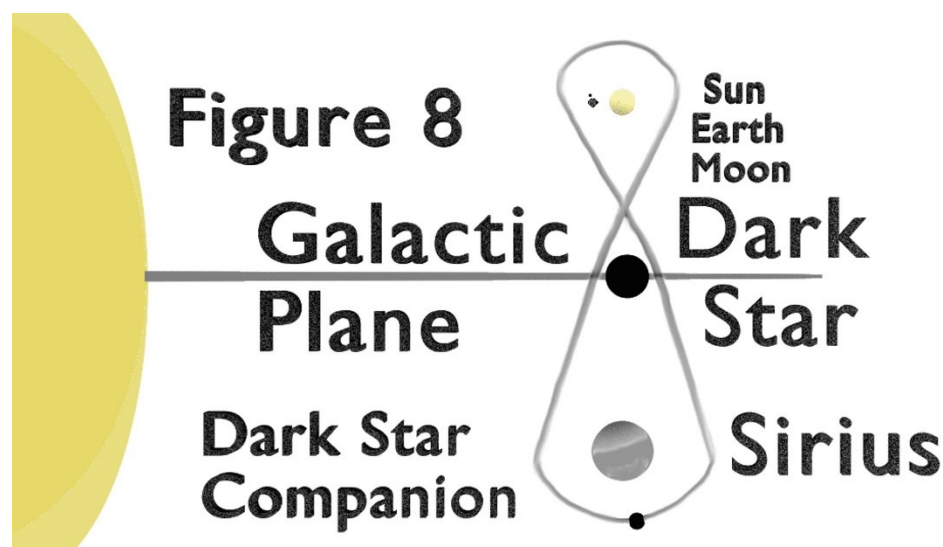

Henrietta Swan Leavitt made the most important discovery of our Century, and the most important in my book "The Principles of the Trinary Universe", she discovered that our Galaxy does not use the same Math as Kepler and Newton wrote, she worked for Edwin Hubble, who like most people of Neurotypical Intelligence, or Normal Intelligence, meaning an IQ of less than 100, and 20 points above being Retarded, believed in Albert Einstein's Theory, because they are not Intelligent enough to understand that it only applied to an Alternate Universe in an Alternate Reality, it is clear in the theory this is not our

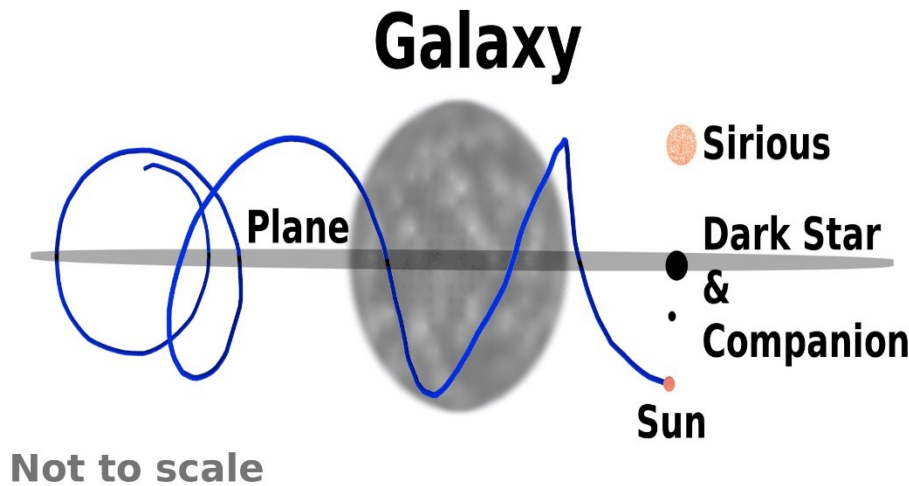

Universe since ours has Light or God in it, but People with Normal Intelligence are not Intelligent enough to figure out God is All Light without Darkness and that Physically exist inside of All Atoms, and Einstein removed God or Light from this Universe, and as Henrietta pointed out, we have Light in our Universe, so Hubble was wrong, and she was right, just like Einstein was talking about a different Universe, and cannot be compared to Newton who only wrote about ours, Einstein never did, but History does not write it that way, in fact, History says Einstein is right, and Newton is wrong, all because Normal People are based on an IQ of 20 points above Retarded, and that bar is being lowered every year, so Normal is Retarded, and why Science in Mainstream is Science Fiction.

Henrietta noticed that the Suns orbit around the Galaxy at the same rate, meaning if we track any two Suns, say the one in red or a circle on the top in frame 1, and the green square on bottom, note they are on the same track, as if like a record these are tracks, over time we would notice this pattern and only Autistic People can find complex patterns, as it turns out, and why Henrietta could see this, but not Edwin.

Henrietta said there are these Dark Stars, and they orbit around our System, making our World include Sirius, the Binary Star, making it a Trinary Star, there is one Dark Star for every system, but the number of Companion Dark Stars decide the Track.

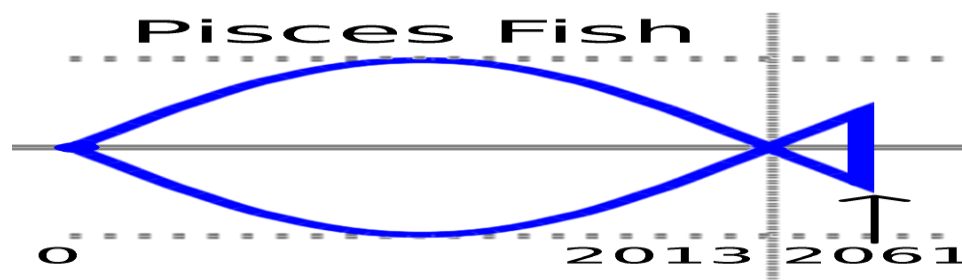

Our Suns travel in a Helix pattern, so we needed new Math, so I devoted most of my life to writing this Math Function, it is called Trinary Galaxy Math, and it creates a table that looks like this:

| Track | Trinary Engines | Max Speed in MPH | Min Speed in MPH | Frequency in Hz | Orbital Distance in Miles | Track Frequency |

The Torah said we are on track 666, and Henrietta counted and found out this is the truth, Trinary Math proves how this Linear Function of Frequency works, and how the Universe controls all movement using this Math, which is based on a simple Math Equation $(^I) + (^I) = 0$, that is Calculus from the Torah, so if you are normal, let me spell this out for you, on track 666, we can prove this, just count them, we have many images, not hard to prove, this is based on real empirical evidence, images, and distance measurements, we know Time is a reference to how many atoms can be recorded in units, as such if an Electron can orbit a Hydrogen Atom in one unit of time, we can say that $1/137$ of that time is one Trinary Unit, as such we have a unit of time, and a known distance based on its Wavelength, as such, if we know its Frequency we can determine when it will change Polarity, which in our case was over 3 Million years

ago, before we went through the Galactic Disk, but that much time is too hard for humans to keep track of, so they divided time into cycles of 2012 years, or one Mayan Calendar Cycle, in 360 degrees, but this only means one Cycle from Positive to Negative, and that is a lot of time, 12 times 2012 years in fact, but that only accounts for only one cycle, and an Iteration is based on one half duty cycle, when poles reverse, so there are around 1492 cycles in one iteration, so these are all Numbers from the Torah, and in Science, we take two Sine Waves, one Positive and one Negative and stack them, you will see an Eye, the All Seeing Eye found on the back of a United States Dollar bill that has the Athena Owl sitting in the corner of the 1, showing the other Eye, Witchcraft, so follow with me, each cycle is Eye, and the Eye represents a 360 degree view of our Universe, and we always know that the End of Time will always come on a year that follows it by margin of 42 years, for example, we know from the Torah, that by the year 2103 our Earth will not have a Magnetosphere, but as NASA has proven, draining the Oil that creates our Magnetosphere has altered that date, and have calculated that at rate of 5% a year, it will be gone by the year 2033, so let me do the math, $2103 - 42 = 2061$, that is one end, the Maximum End, but the Minimum End is 2061 minus 42 or 2019, and it is now 2021, so we are in the Zone.

Pisces Fish is a Sine wave showing the End of Time date in the Torah, it starts here in the Gregorian year of 0, or the year Jesus was born, but this data has nothing to do with that since it comes from the Mayan Calendar, and has 2012 years in one cycle, so in 2013, the year our North Magnetic Pole started to move, and will make the United States the new South Pole by the year 2033 according to NASA, who said our Magnetosphere is decaying at rate of 5% a year, and will be gone by 2033, so Newton calculated this to be the year 2061, so about 28 years difference, and due to the Oil being removed, and those voids will cause a massive Earthquake followed by sink holes, so the Fish shows when the End of Time will be, but it is only an Estimate, 2033 is within that range, so it is proof the Torah knew about this, and why it talks about this subject more than all others.

This Zodiac Table that was found in one of the Canons, proves this timeline.

When our Magnetosphere reverses, our Magnetosphere will collapse its field, venting our Atmosphere into deep space for over 6 minutes till its field has enough strength to hold it in again, venting all our heat, creating an instant Ice Age that will last hundreds of years.

Trinary Science is about understanding Trinary State Changes in Atoms, and understanding Science at this level, and not basing it on Theories never proven, but only on Facts, and these came from the Torah, proving that it is a book about Alchemy, also known as Chemistry, Science and Math, proving that the Spell Trinary is the same word as Trinity since it Logically means 3, proving this is God in the Torah, and the Torah is the Truth about our Universe, and my Cousin Isaac Newton did not invent Calculus any more than I invented Trinary Math, we both only learned how to read and understand Witchcraft, and nothing more, and why the Church hunted down and murdered all Witches and Wizards throughout time, and why IAM the Light Wizzard in the Flesh, where Flesh is just short for Meat, and Me is short for Meat, so it is Me Jeffrey Scott Flesher, and Flesh is my Legal name, since that is the way I sign it, so I will be back, in the Flesh, to teach you about Trinary Science or the Science of God according to the Torah, all that Wizards know are recorded in the Torah as Math, which is a Language called Witchcraft, but this is real Science, but not Mainstream Science Fiction, so it needed a new name, and Trinity was associated with the Teaching of a Deity God and Christ that do not Physically Exist, so I call it Trinary Science, to remove all Religion, but kept the teaching of the Torah since God is All Light without Darkness, and do not make into this God anything which this God is not, and since that is only Light, and Darkness is the

Colors we see in the Atom known as an Electron, and only due to its Frequency, so God is just Short for All Light without Darkness, since that is a long sentence, but this also implies God is every Atom in the Universe, and not just one, which is all we are, or IAM, I And Me, or Meat, meaning Flesh, and that is my Legal name, and why Jesus said he would come back in or as the Flesh, I just throw that part in since it is a fact in the Torah, and my 100th Birthday will be on 14 January 2061 the day Sir Isaac Newton calculated in the year 1666, so facts are more Entertaining than lies, and what Trinary Science is based on, only what anyone can prove is the Truth, so start with the Torah or Bible, if God is All Light without Darkness, and that is what Trinary is, just 3 Logical State Changes we can see under an Electron Microscope as Solid, Semisolid and Invisible State Changes, so this is all based on Empirical Evidence and not Theory.

Trinary Science is only what can be proven to be the truth about the Trinary Universe.
