

A Wizards guide to Bucket Lists

A Bucket List is nothing new, the Movie was great, but not really what I want to talk about, it is what everyone on this planet might agree would make a good Bucket List.

To get everyone to agree on anything is hard, we cannot agree on the color of the sky during the day or night, and no two people will ever view them the same way, so there is no real reason to believe they should, and this Bucket List is the same thing, no one will ever agree on with anything just because they believe they have the right to believe what they want, and there is no reason to believe I can ever change anyone's concept about that belief, since means you have the Right to believe in things not True, and that is insane, and why no one agrees on anything, they are all insane.

I will not number this List, it is not the type of list to check off, it is just a List of things I would like to put on my Bucket List, with the goal of making it everyone's Bucket List.

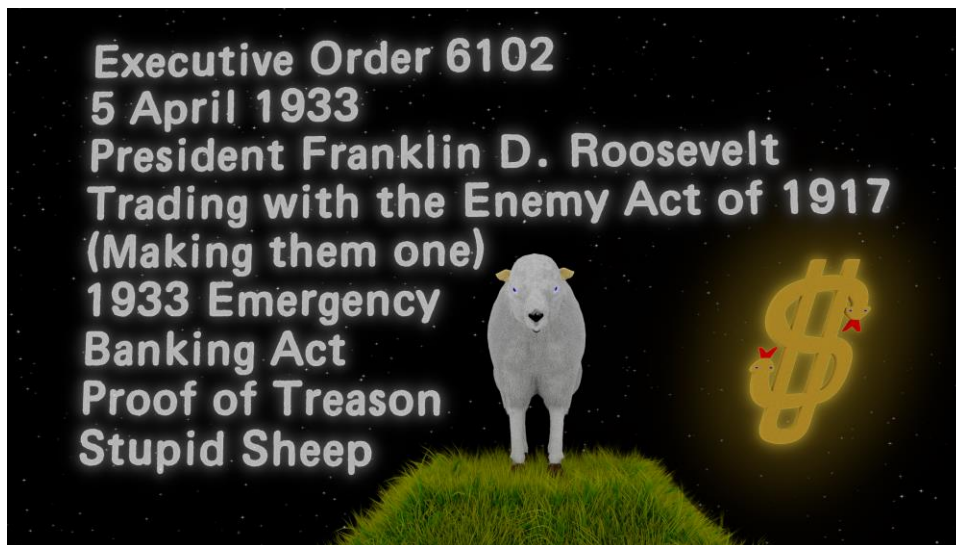

To understand this Bucket List, let me explain "My Life as a Military Dog", I was born Jeffrey Scott Flesher on a Saturday the 14th of January in 1961, one hundred years before the End of Time which Sir Isaac Newton calculated in the year 1666, and NASA has proven will happen, but they predict the year 2033, saying our Magnetosphere is decaying at a rate of 5% a year, so I grew up knowing the End of Time was a real Event, but Mainstream and School, taught me only Lies, like the Science of Einstein, and a Deity God that does not Physically Exist, and all because people believe they have a Right to believe what they want, and having been tested with an IQ over 180, I tend to view those types that believe this, as Fools, "They say there are two ways to be fooled, one is to *believe* what isn't true, the other is to refuse to believe what is", Viggo the Dragon Hunter, so this Bucket List is for people who only want to believe in the Truth.

I have written books about the Trinary Concepts, such as Trinary Science, Trinary Atoms, Trinary Engines, Trinary Universe, and Trinary Sanctuary, so I will not repeat that here, instead I want you to understand the Trinary Truth, and once you understand it, you can take the next step, which is what this Wizards Guide to this Bucket List is all about, once you understand you are made of Atoms with All Light without Darkness in them, you understand we are made of God, and the Force of God is what makes the World go around.

Once we accept our Souls are Electricity, we know where we go when we Die, and that is never the Truth most want to believe, and that is that we are what the Torah call Satan, so my first item on this Bucket List, is to own up to the Truth about being Light Beings.

Society is what allows people to Lie by using the Excuse we have the Right to believe what we want, therefore the Right to Teach it, knowing it is a Lie, and this the next item on my Bucket List, is to live in a Society that does not allow these types of Rights, and does not allow Lies, Liars or Theory, and only allows Facts.

My goals and my bucket list are related, as everyone's should be, it is not enough to want to have a Bucket List, it needs to also be a goal, so to that end, I want Trinary Sanctuary to be on my Bucket List, and that is something I must explain.

I want to build Trinary Sanctuary, and by I, I mean all the I's, and not just my I, and since I cannot build it by myself, it will take a lot of I's to make this, so I want people who want to live in True Freedom,

without Religion, Laws, and Money, and most people cannot imagine a life without them, these are all Lies, nothing about them is the Truth, so how do I make my Goals and Dreams part of my Bucket List, is by understanding that what is good for one of us, is good for all of us.

I dream of getting Land that the Federal Reserve will declare Free for Trinary Sanctuary to exist, and that is the beginning of a Dream that only has 10 years left to build it, so money is a moot point since there is not enough money in the World to build this, and Laws would only slow us down, and Religion would mean War between different versions of Insanity, so we all must agree God is All Light without Darkness and move on.

I would build this with making Movies in mind, and start there, the reason is simple, we all want to watch movies, but for Free since everything in Trinary Sanctuary is Free, but that would be hard to sell Hollywood on this concept, so I will not try, instead I have a Dream they might like to enjoy with me.

We build the new Hollywood with all the Stars in mind, this means everyone working on the movies as well, and in Trinary Sanctuary that means everyone, since we make it our job, but the money never becomes part of Trinary Sanctuary, that is kept with Hollywood, in fact, all Industry will work this way, every business that gives us the machines to make something we want to make, they get all the Money made from selling it, and Trinary Sanctuary does not have anything to do with that Money.

If we build Trinary Sanctuary to make Energy, Water and Food, and all the things we need or require surviving as a stand-alone Society, no importing anything, we only export, therefore Trinary Sanctuary is not dependent on the outside.

Trinary Sanctuary is built as the Hub, this is based on a round layout of land, it has a circle that defines what is outside, and that is the Temporary City built to house Trinary Sanctuary, while its being Constructed, the concept is simple, these buildings are built to withstand Ice Glacier movement, and where the Military resides, and all weapons, in Trinary Sanctuary no weapons are permitted, this is because they are not required for safety, we live inside of a Military Zone that protects us.

All power, water and food come from Trinary Sanctuary, so the outside world does not need to concern itself with that need, and how the two survive this together.

While working in Trinary Sanctuary, everyone will have the same opportunities, this concept is possible by allowing everyone to participate in all its activities or duties, call them tasks, or work, we all have a job, and there are many jobs, and everyone should have the same opportunities to do those jobs, at some point, and how Trinary Sanctuary works, we want everyone to have that opportunity, as such,

everyone will have the opportunity to write, direct, and make their own Movie, this will ensure non-stop entertainment, that everyone gets to be a part of, and even be a Star.

Trinary Sanctuary is a place where Bucket List can come true.
